

# DANGEROUS WATERS

THE EXCLUSIVE SOURCE FOR CODES,

UPDATES AND SPECIAL EVENTS

So, if everything went as planned, you should be receiving this newsletter a little quicker than the last. I can just see all of you out there now doing your little Happy Dance all the way back from the mailbox. Well guess what, this is it! The End! Game Over! There will be No More Dangerous Waters after this little issue. The abuse was far too much for this CodeBoy, so now you get NOTHING! Of course I wouldn't want to make our final issue anticlimactic, so we've got a few new things for you in this issue. For instance the debut of GameShark Code Creators Club, a couple of hot shots on the net who are hacking some mighty fine codes. You'll see some of their work later in this issue. Also in this issue, as an exclusive feature, I have remembered to print the cost of back issues. And maybe a touching little goodbye speech by your truly.

**NOTE:** The above paragraph stated that *Dangerous Waters* has been canceled. **STOP CRYING!** It was only a cruel joke. Our next issue will be out in May and the format should be completely revised! Except I'll still be writing it.

## ULTRA-SUAVE SHARKWEAR BY INTERACT

Check out the choice threads in that grainy photo up there. Trust me, it wouldn't hurt your image a bit to be spotted about town in one of those. Now of course, it's no *Amani*, but you'll notice the difference as soon as you put this baby on. There's no stopping you in your new GameShark T!

Shit, so get one today! (Well, not really today, actually it takes a few weeks.) All you need to do is send a check or money order for \$12.00 to: InterAct Accessories, Inc. ATTN: SHIRT 9611 Pulasia Park Drive, Suite 309, Beltsville, MD 21120. And as a special bonus, the shipping and handling is on us.

## Shark Fact

The largest fish (not mammal) in the ocean is the Whale Shark. An adult Whale Shark can grow up to 60 feet long!

## Shark Bites

- Thanks to all of you out there that voted in *Electronic Gaming Monthly's* reader poll. You guys have made GameShark the "Peripheral of the Year" for 1996!
- The SharkPad Pro 64 outsold all other Nintendo 64 controllers by a ratio of more than 3 to 1 from November to January.
- InterAct sells more portable, 16-, 32- & 64-bit accessories and controllers than any other company in the US (including Sony, Sega and Nintendo).
- InterAct is getting ready to launch a new look for GameShark. Keep an eye out for a new logo, new packaging and new advertising. Let us know what you think!
- Soon to hit the shores near you is InterAct's newest PlayStation controller... the "PiranhaPad". Read more about it in the *Gratuitous Advertising* Section.
- InterAct has got a ton of new controllers in the works. I can't say too much right now for fear that my tongue will be cut out, but some of the designs

are sure to be revolutionary!

- *Dangerous Waters* now has over 11,000 members! Does that mean you're too big to give your dad a hug?
- You may have noticed that GameShark is going through an identity crisis... is it "Game Shark" or "GameShark"? You guessed it, it's "GameShark". Who says over-the-hill female singers (Madonna, Cher) are the only ones that can go by one name?

- Ceph Fourth

## NOW YOU CAN GET BACK ISSUES!

- Issue #1:** Back in stock (Yep, a whole Back issue!)
- Issue #2:** Featuring codes from games like *Toshinden*, *Klaxxon*, *Mortal Kombat 3*, *Darius*, *Gaiden*, *NBA Jam*, and *The Horde*. (Only a Dollar)
- Issue #3:** Featuring codes from *CyberSled*, *Resident Evil*, *Agile Worms*, *Guardian Heroes*, *Iron Storm*, and *Virtua Fighter 2*. (Much less than roast beef)
- Issue #4:** Featuring codes from *Big Hurt*, *Baseball*, *Golden Axe*, *Shining Wisdom*, in the *Hunt*, and *Skeleton Warriors*. (One measly Dollar)
- Issue #5:** Featuring codes from *Alien Trilogy*, *Primal Rage*, *Virtua Fighter Kids*, *Bogey Dead 6*, and *Tekken 2*. (It won't hurt a bit)
- Issue #6:** Featuring codes for *Dark Forces*, *Final Doom*, *Twisted Metal 2*, *Jet Moto*, *Sonic 3D Blast*, *NFL '97*, and *Fighting Vipers*. (It's only a Buck)
- Issue #7:** That's this issue sly! (And it looks like gold)
- To receive your back issue, simply send a check or money order for \$1.00 (if you want 2 issues send \$2, 3 issues equals \$3... you get the picture) to: InterAct Accessories, Inc. ATTN: BACK ISSUES, 9611 Pulasia Park Drive, Suite #309, Beltsville, MD 21120. Be sure to include your complete address and a listing of the issue(s) you would like. Hey, they're just one dollar each if you hadn't noticed.

## from the MailBox

Gee, letters this month have been just swell! Nothing but loads and loads of praise, not one ounce of hate mail for me to devote my undivided attention to. All my loving fans get gold stars this month for their unfailing support. So lets get to those letters guys!

Letter number one is from Arthur Robinson from Sacramento, CA. Art writes:

Dear Whoever,  
I am sending this whole piece of paper to request a back issue. The back issue I desperately need is "Issue #5". I have also enclosed a check for one massive dollar to fund this huge undertaking.

### CodeBoy Responds:

Art, there's not much I can really reply with, I just thought your request was a bit unclear. Now as best I could decipher your cryptic message, I believe you would like something from us, and in return you have sent us some money. In the future you may want to make yourself clearer Art. Oh, thanks for the letter too, I thoroughly enjoyed it! Really, I promise.

Our next fine selection comes from Larry Ross from Gurnee, IL. Larry writes:

Dear Dangerous Waters,  
I am very interested in receiving back issues #2, #3 and #5. I'd even be willing to send a check or money order, but for how much? What's the deal, and what is the price? If you print this letter save the T-shirt and use the money to Next Day Air my answer so I don't have to wait 2 weeks to get the ball rolling on these back issues! Then maybe fire the guy who was in charge of proofreading issue #6 for not including the price.

### CodeBoy Responds:

#### Proof reader?

Next we have a dandy letter from Dean

Germans of Troy, Ohio. Dean writes:

Dear Dangerous Waters,  
My GameShark is my top pick for favorite after-market accessory. Even the menu screen is pretty classy & makes my friends drool with envy (I keep plenty of towels handy). Now you can make my day if you would just come up with codes for Gex and Battle Monsters.

### CodeBoy Responds:

Dean, thanks for the praise, you're not the only one who feels so strongly about the GameShark. GameShark was awarded "Peripheral of the Year" in the EGM reader's poll, so, much thanks to all of you for making that possible! Also the codes you requested were printed in earlier issues, and you should be receiving those any day. But Dean, I really didn't need to know about you and your friends excessive use of towels. What you do is your business!

Write to us and tell us what you think about GameShark! Your letter might be picked to appear in Dangerous Waters and you will achieve a goal some never reach: getting published in print! This is your chance to expose your hard-core writing skills. So here's the deal: send us a letter with what you think about GameShark. Be sure to include your name, complete address, age, and the game system you own. If we really like your letter, we might just send you one of those way-cool T-Shirts we are selling. Oh, and we will print your letter. Just send your letter to: InterAct Accessories, Inc. ATTN: Letters • 9611 Pulaski Park Drive • Suite 309 • Baltimore, MD 21220.

## Hacker Alert!

Are you a hacker, or do you just play one on TV? For all of you who have that mysterious device known as a Comms Link (if you don't have one I'm not going to tell you what it is) and are hacking your own codes, now YOU can be as famous as CodeBoy! That's right, you might "already be a winner!" All you have to do is submit your codes to us for testing, if your code is NEW and GOOD, we'll give YOU the credit. Imagine seeing your name on the "Surfing with Sharks" website, or better yet, in your favorite video game magazine! If your really good, you might even work for CodeBoy someday. On this note, we would like give a special "damn good job" to Bryan Black at the GameShark Code Creators for dedicating so much of his time to helping YOU. And what have you given him in return? A card? Flowers? Anything? CodeBoy also welcomes gifts of any size, shape and color (as long as it's not boring). Remember, "bad" codes can cause your GameShark to lock up, so do like your parents always said and "Don't take codes from strangers." Submit your codes to the attention of "CodeBoy" at 9611 Pulaski Park Drive, Suite 309, Baltimore, MD 21220 or via email at [codes@gameshark.com](mailto:codes@gameshark.com) (put the name of the game that the code is for in the subject line).

- Cap'n Fourth

Just as promised, we have a load of codes from our friends at the GameShark Code Creators Club, who can be reached at: <http://www.wtc.net/~bnary/gscoc/home.jsc>. They haven't quite mastered the power of speech yet, having been raised by a pack of wild hackers in the mountains of South America, but they can create codes that make yours truly break down and cry. They have been known to chant from time to time though, I think I once heard them say "We make holes in teeth", but most of the time they keep chanting "Now... You Can Find The Codes You Never Knew Existed!!". Don't ask me, they're swages I guess.

ALL THAT AND A  
BAG O' CHIPS

This is a new section where we tell you what we like. That's right, there's more than just CodeBey behind this little piece of love we call Dangerous Waters. Allow us to introduce ourselves.

## CodeBey

You know him as that sarcastic little pain in the butt that hacks codes and answers the reader mail. We know him as "our B! freak". Besides dinner by candlelight and long, moonlit strolls on the beach, these are some of CodeBey's favorite things...

## CodeBey's Picks

## Top 5 Games

1. Cool Boarders
2. Powerline
3. Shadows of the Empire
4. Rally Cross
5. Pool - the old fashioned kind, for money of course

## CodeBey's Music to Hack By...

1. Unseen - Scattered, Smothered and Covered
2. Supersuckers - The Smoke of Hell
3. Melvins - Houdini
4. Moistmen - Rockin' Roll Juggernaut
5. Big Chief - Mack Avenue Skull Game

## Littlest Wookiee

Littlest Wookiee is CodeBey's first mate and right-hand man. Not only does he answer all of the email and help with the hacking duties, he is often the guy you talk to when you call up asking for codes. So be nice, if our friendship plot to "off" CodeBey ever succeeds, Littlest Wookiee is the next in command.

## Littlest Wookiee's Picks

### Capt'n Fourth

Hey, that's me! That's right, I am the one that CodeBoy and Little's Wookiee curse when I am out of the room. My job, simply put, is to make you guys happy (within reasonable limits of course). I help take your ideas, sprinkle 'em with some fairy dust, cook them in an industrial strength oven for a couple of months and wave up steamy hot blobs of cool stuff in a way that makes your mouths water. Some may say that I am a marketer, but I prefer Mouseketeer. Just don't make fun of the ears.
